Khaled Mahfouz

Computer & Automation Engineering Student | Syrian | 11 September 2004

Skilled in **Embedded Systems**, **Software Development** & **AI**

khaledmhfz2004@gmail.com | khaledmhfz.vercel.app | LinkedIn | GitHub | Telegram

Education

- **Computer & Automation Engineering** @ Damascus University (2023–2027, Expected)
  Specialization: Computer Systems & Hardware

Professional Experience

- **Junior Frontend Developer** @ GammaTech (2023–2024)

Featured Projects

- **stm32-without-cubeide** – STM32 Bare-Metal Build Environment & Toolchain
  Tech: C, STM32, CMake, Ninja, OpenOCD
  View on GitHub
- **esp32-doom** – Embedded Doom Engine Port
  Tech: C, ESP32, ESP-IDF, Bare-Metal Programming
  View on GitHub
- **Tasks.org JSON Reader** – Web Utility for Task Management
  Tech: JavaScript, HTML, CSS, JSON
  View on GitHub
- **NMAP Automation Script** – Network Scanning Automation Script
  Tech: Python, NMAP, Bash
  View on GitHub

Certifications & Training

- **TinyML Course** @ Hamak AI and Robotic Club (2025–2026)
  Deploying ML models on microcontrollers via Edge Impulse
- **Fonte Aperta Program** @ Fonte Aperta (2025)
  Advanced AI use cases, security awareness, and open-source solutions
- **Motion Graphics Course** @ Spacetoon Media Group (2022)

Technical Skills

- **Embedded Systems & Hardware:** C, C++, Microcontrollers (STM32, ESP32, Arduino), Bare-Metal Programming, TinyML, Edge Impulse
- **Software Development & Web:** JavaScript, HTML/CSS, Bootstrap, Python, JSON
- **Developer Tools & Environment:** Linux (Shell/Kernel), CMake, Ninja, OpenOCD, Nmap, Git/GitHub, Docker

Languages

- **Arabic** – Native proficiency
- **English** – Intermediate (B1–B2)
- **French** – Basic (A2)
